STUDYING WITH ACHIEVABLE

1. Get a breakdown of content in **Exam Overview**
2. Track your progress using the **Content and Memory charts** on your dashboard
3. Tap **Next** to launch textbook content and any tutorials provided
4. At the end of the content page, click **Complete**. This auto populates review questions.
5. **Review** what you've learned. Repeat the sequence and let Achievable take it from here.
6. Take full length **Practice exams** once all of your progress charts are full
7. **Ace the exam!**

IMPROVING YOUR MEMORY RETENTION

What makes Achievable special is something called adaptive learning. As you study with Achievable, the system learns about you and personalizes the study program to your strengths and weaknesses. We then optimize for your memory retention by scheduling your reviews at the optimal time.

PRO TIP!)

Completing your reviews daily gives you the maximum memory benefit.
